About Us.

CHADMONT LLC

Founded: 2023

Headquarters: Miami, FL, USA

Global Reach: Europe, Asia, South America, Africa, North America

Products: Metals, Agricultural Commodities, Fish Products, Energy

Chadmont LLC is a rapidly expanding commodity trading company dedicated to connecting global suppliers and buyers with efficiency and reliability. We specialize in securing competitive pricing, flexible payment terms, and customized logistics to meet the unique needs of every client.

Despite being founded as recently as 2023, Chadmont operates with the agility and precision of an established powerhouse due to the experience of its associates. We are actively expanding our network, forging strong partnerships, and solidifying our reputation as a trusted name in international trade.

With a focus on trust, adaptability, and efficiency, we are building a company that ensures long-term success for both our partners and ourselves. With a highly committed team, our mission remains clear: to deliver secure, profitable, and smooth transactions in the global marketplace.

ABOUT ME

From an early age, I understood the power of resilience, strategy, and taking decisive action. I was born in the aftermath of hurricane Ivan after my family had lost everything just weeks prior. I watched my father lead my family from total devastation through his resilience, skill, and ability to adapt. With powerful but loving guidance, he brought us from a Hellish existence to a new, comfortable life in central Florida. From there, life has tested me in ways that demanded not just survival, but the ability to adapt, lead, and build something lasting. Following my father's passing in 2022, I quickly realized I needed to move decisively as he once had to lead my family through yet another dark time.

As such, I founded Chadmont with the ambition to lead as my father taught me. While Chadmont is a young company, I have dedicated myself to building Chadmont on trust, efficiency, and adaptability. I watch for opportunity in the turbulent realm of international trade, and have built a skilled multinational team to ensure secure and efficient deals in every corner of the world. I plan to continue to expand Chadmont on a global scale, forging strong partnerships and establishing Chadmont as an innovative force in the industry.

TABLE OF CONTENTS

1. EDIBLE OILS:

- Canola Oil
- Sunflower Oil

2. SUGAR:

- ICUMSA 45 Sugar

3. SPICES:

- Cardamom

4. FRESH PRODUCE:

- G9 Cavendish Bananas
- Spunta Potatoes

5. GRAINS AND RICE:

- Durum Wheat
- Basmati Rice

6. SEAFOOD:

- Horse Mackerel
- Atlantic Mackerel
- Pacific Mackerel
- Atlantic Herring
- Argentine Red Shrimp
- European Sardines

7. METALS & RAW MATERIALS:

- Copper
- Aluminium

8. ENERGY:

- EN590 Diesel (10ppm)
- Jet A-1 Aviation Fuel

Canola Oil

Description: Canola oil is a versatile vegetable oil derived from canola plant seeds. Known for its mild flavor and high smoke point, it's ideal for various culinary uses like cooking, frying, and baking. Rich in unsaturated fats, it supports a balanced diet with low saturated fats and beneficial omega-3 and omega-6 fatty acids.

Uses:

- Cooking
- Salad dressings
- Deep frying
- Food manufacturing

Storage: To maintain canola oil's quality, store it in a cool, dark place, away from heat and light. Use it within a reasonable time after opening for optimal freshness. Its culinary versatility, health benefits, and eco-friendly production make it a valuable choice for enhancing cooking while supporting sustainability.

Specifications:

- Low saturated fat
- High in monounsaturated fats
- Contains omega-3 fatty acids
- Smoke point: ~400°F (204°C)

Sunflower Oil

Description: Derived from sunflower seeds, this oil is esteemed in culinary circles for its subtle flavor and heat resilience. Its application in various cuisines highlights its versatility. The oil's stability at high temperatures makes it a preferred choice among chefs and producers.

Uses:

- Cooking
- Baking
- Deep frying
- Cosmetics

Storage: To preserve the quality of sunflower oil, keep it in a cool, dark place, away from heat and light. For optimal freshness, use it within a reasonable time after opening. With its culinary versatility, health benefits, and eco-friendly production, sunflower oil is an excellent choice for enhancing cooking while promoting sustainability.

Specifications:

- Rich in vitamin E
- High in unsaturated fats
- Smoke point: ~440°F (227°C)

ICUMSA 45 Sugar

Description: ICUMSA 45 is esteemed as the highest-quality refined sugar. It is widely used in the food processing industry and is a key ingredient in numerous beverages. Its superior quality makes it a preferred choice for manufacturers seeking premium sugar.

Uses:

- Beverages
- Confectionery
- Food industry
- Pharmaceuticals

Storage: To maintain the quality of ICUMSA 45 Sugar, store it in a cool, dark location, away from heat and direct light. For optimal freshness, it is advisable to utilize it within a reasonable period after opening. Due to its high purity, consistent quality, and suitability for various applications, ICUMSA 45 Sugar is an excellent choice for enhancing culinary creations while ensuring reliability and quality.

Specifications:

- ICUMSA rating: 45
- Polarization: 99.8% minimum
- Moisture: 0.04% max

Cardamom

Description: This spice, known for its strong aromatic properties, is commonly utilized in culinary applications, including cooking, baking, and the preparation of beverages. It is available for purchase in either whole pod form or as a finely ground powder.

Uses:

- Spices
- Teas
- Sweets
- Medicinal Apps

Storage: To maintain the quality of cardamom, store it in a cool, dark place, away from heat and direct light. For optimal freshness, it's best to use it within a reasonable period after opening. Cardamom's rich aroma and versatile flavor make it an excellent choice for enhancing culinary creations while ensuring consistent quality and taste.

Specifications:

- Green cardamom or black cardamom
- Essential oil content: 2-8%
- Strong, aromatic fragrance

G9 Cavendish Bananas

Description: The banana variety, renowned for its extended shelf life and sweetness, is highly favored. Primarily utilized for fresh consumption, it offers a convenient and nutritious snack. Its versatility also makes it an ideal ingredient for smoothies and baking, enhancing the flavor of various culinary creations.

Uses:

- Fresh consumption
- Smoothies
- Baking

Storage: To maintain the quality of G9 Cavendish Bananas, store them at room temperature, away from direct sunlight and heat sources. For optimal freshness, consume them within a reasonable period after they ripen. G9 Cavendish Bananas' sweet taste and smooth texture make them an excellent choice for a variety of culinary creations while ensuring consistent quality and flavor.

Specifications:

- Length: 18-25 cm
- Brix level: 18-20
- Packaged in 13.5 kg boxes

Spunta Potatoes

Description: The potato is noted for its firm, yellow flesh and smooth texture. It is well-suited for cooking and frying. Its consistency and flavor make it ideal for a variety of dishes. Additionally, its texture ensures even cooking, enhancing meal quality. This potato is often preferred by chefs and home cooks for its versatility in recipes.

Uses:

- Cooking
- Deep frying
- Food Processing

Storage: To maintain the quality of Spunta Potatoes, store them in a cool, dark place, away from direct sunlight and heat sources. For optimal freshness, use them within a reasonable period after purchase. Spunta Potatoes' creamy texture and mild flavor make them an excellent choice for a variety of culinary creations while ensuring consistent quality and taste.

Specifications:

- Size: 40-80 mm
- Low sugar content
- Long shelf life

Durum Wheat

Description: This wheat variety, known for its high protein content, is predominantly utilized in the production of pasta, semolina, and bread. It is particularly well-suited for making pasta, couscous, and bread, as well as being an essential ingredient in flour production. Its unique properties make it an invaluable component in these culinary applications.

Uses:

- Pasta
- Couscous
- Bread
- Flour

Storage: To preserve the quality of Durum Wheat, it should be stored in a cool, dark environment, away from direct sunlight and heat sources. To ensure optimal freshness, it is advisable to use it within a reasonable timeframe following purchase. Durum Wheat's firm texture and subtle flavor make it an ideal choice for a wide range of culinary applications, consistently delivering superior quality and taste.

Specifications:

- Protein: 12-15%
- Moisture: 12% max
- High gluten content

Basmati Rice

Description: This rice variety is a long-grain type cultivated primarily in the Indian subcontinent, renowned for its distinctive fragrance. It is celebrated for its aromatic flavor, which enhances a multitude of culinary dishes. The rice's unique characteristics make it a sought-after ingredient in both traditional and contemporary cuisines.

Uses:

- Pilaf
- Biryani
- Side Dishes

Storage: To maintain the quality of Basmati Rice, store it in a cool, dark place, away from direct sunlight and heat. For the best freshness, it's recommended to use it within a reasonable period after purchase. Basmati Rice's delicate aroma and fluffy texture make it an excellent choice for various culinary dishes, consistently offering superior quality and flavor.

Specifications:

- Length: 6.8 mm+
- Moisture: 12% max
- Aged for at least 12 months

Horse Mackerel

Description: This fish is a small, pelagic species renowned for its firm texture, making it a popular choice in various culinary applications. It is highly valued for its rich content of omega-3 fatty acids, which are beneficial for heart health. Its nutritional profile and versatile use in cooking make it a sought-after option for health-conscious consumers.

Uses:

- Canned fish
- Frozen fillets
- Fresh consumption

Storage: To maintain the quality of Horse Mackerel, store it in a cool, dark place, away from direct sunlight and heat. For the best freshness, it's recommended to consume it within a reasonable period after purchase. Horse Mackerel's distinct flavor and firm texture make it an excellent choice for various culinary dishes, consistently offering superior quality and taste.

Specifications:

- Size: 200-600 grams
- Processing: Frozen or fresh

Atlantic Mackerel

Description: This fish, known for its robust flavor, is rich in natural fats, making it a popular choice for smoking, grilling, or canning. Its distinctive taste is well-suited to a variety of culinary applications. As a result, it is highly regarded in both gourmet and traditional cooking methods.

Uses:

- Canned fish
- Frozen fillets
- Grilled

Storage: To preserve the quality of Atlantic Mackerel, it should be stored in a cool, dark location, away from direct sunlight and heat. For optimal freshness, it is advisable to consume it within a reasonable timeframe following purchase. The distinctive flavor and firm texture of Atlantic Mackerel make it an exceptional choice for a variety of culinary applications, consistently providing superior quality and taste.

Specifications:

- Size: 200-600 grams
- Omega-3 rich

Pacific Mackerel

Description: The species in question bears resemblance to the Atlantic mackerel, yet it inhabits the Pacific Ocean. It is distinguished by its similar characteristics, adapted to the unique conditions of its environment. This distinction emphasizes the diversity within marine ecosystems across different oceans.

Uses:

- Canned fish
- Frozen fillets
- Grilled

Storage: To maintain the quality of Pacific Mackerel, it should be stored in a cool, dark place, shielded from direct sunlight and heat. For optimal freshness, it is recommended to consume it within a reasonable period after purchase. The distinctive flavor and firm texture of Pacific Mackerel make it an excellent choice for a variety of culinary applications, consistently offering superior quality and taste.

Specifications:

- Size: 150-400 grams
- High protein content

Atlantic Herring

Description: This is a species of cold-water fish commonly utilized in various culinary applications such as smoking, pickling, or canning. It is renowned for its versatility and ability to retain flavor and texture through these preservation methods.

Uses:

- Canned fish
- Frozen fillets
- Smoked

Storage: To maintain the quality of Atlantic Herring, it should be stored in a cool, dark place, shielded from direct sunlight and heat. For optimal freshness, it is recommended to consume it within a reasonable period after purchase. The distinctive flavor and firm texture of Atlantic Herring make it an excellent choice for a variety of culinary applications, consistently offering superior quality and taste.

Specifications:

- Size: 150-400 grams
- High in omega-3

Argentine Red Shrimp

Description: This exceptional variety of shrimp is renowned for its delightful sweetness and vibrant red hue, making it a standout choice for seafood enthusiasts. Its superior quality distinguishes it as a premium selection among shrimp varieties, appealing to discerning palates. The unique combination of taste and visual appeal ensures its esteemed status in culinary circles.

Uses:

- Grilled
- Sautéed
- Seafood dishes

Storage: To maintain the quality of Argentine Red Shrimp, it should be stored in a cool, dark place, away from direct sunlight and heat. For optimal freshness, it is recommended to consume it within a reasonable period after purchase. The distinctive flavor and firm texture of Argentine Red Shrimp make it an excellent choice for a variety of culinary applications, consistently offering superior quality and taste.

Specifications:

- Size: 10-15 cm
- Processed: Fresh, frozen

European Sardines

Description: These small fish are known for their high nutritional value. They are frequently preserved in cans or prepared by grilling. Their rich nutrient content makes them a popular choice for those seeking a wholesome addition to their diet.

Uses:

- Canned fish
- Fresh Food
- Grilled

Storage: To maintain the quality of European Sardines, they should be stored in a cool, dark place, away from direct sunlight and heat. For optimal freshness, it is recommended to consume them within a reasonable period after purchase. The distinctive flavor and firm texture of European Sardines make them an excellent choice for a variety of culinary applications, consistently offering superior quality and taste.

Specifications:

- Size: 12-18 cm
- Omega-3 content: High

Copper

Description: This metal is highly versatile, finding extensive use in electrical wiring, construction, and various industrial applications. Its adaptability makes it a crucial component in numerous sectors, contributing significantly to modern infrastructure. Renowned for its reliability and efficiency, it remains an indispensable material in both technological and architectural advancements.

Uses:

- Electrical wiring
- Plumbing
- Industrial Machinery

Storage: To maintain the quality of Copper, it should be stored in a cool, dry place, away from direct sunlight and moisture. For optimal condition, it is recommended to use it within a reasonable period after purchase. The distinctive properties and durability of Copper make it an excellent choice for a variety of applications, consistently offering superior performance and reliability.

Specifications:

- Purity: 99.9% min
- Forms: Cathodes, wire, rods

Aluminium

Description: This is a versatile and lightweight metal known for its exceptional resistance to corrosion, making it an ideal choice for a variety of applications. It is extensively utilized in the construction industry for its strength and durability, ensuring long-lasting structures. Additionally, its use in packaging and transportation highlights its importance, as it contributes to both efficiency and sustainability in these fields.

Uses:

- Aerospace
- Automotive
- Packaging
- Industrial Manufacturing

Storage: To maintain the quality of Aluminium, it should be stored in a cool, dry place, away from direct sunlight and moisture. For optimal condition, it is recommended to use it within a reasonable period after purchase. The distinctive properties and durability of Aluminium make it an excellent choice for a variety of applications, consistently offering superior performance and reliability.

Specifications:

- Purity: 99.7% min
- Forms: Sheets, ingots, coils

EN590 Diesel (10ppm)

Description: EN590 is the European standard for ultra-low sulfur diesel fuel, designed for maximum performance and minimal environmental impact. With a sulfur content of just 10 parts per million (ppm), EN590 meets strict EU emissions regulations and is the preferred diesel grade for modern engines.

Origin & Quality:

Our EN590 is primarily sourced from the refineries of Kazakhstan and Qatar, nations known for their robust energy sectors and adherence to international fuel quality standards. The diesel undergoes stringent refining processes, ensuring it meets or exceeds EN590 specifications for ignition quality (cetane number), cold flow performance, and low sulfur emissions.

Logistics & Export:

From there, cargo is dispatched globally via FOB, CIF, or DAP terms, tailored to client requirements. Our logistics partners ensure secure, reliable, and timely deliveries.

Specifications:

- Sulfur content: ≤ 10 ppm
- Cetane number: ≥ 51
- Density @ 15°C: 820–845 kg/m³
- Flash point: $\geq 55^{\circ}\text{C}$
- Cold Filter Plugging Point (CFPP): Varies by season/region
- Compliance: EN590:2009+A1:2010 (latest amendments applied)

Jet A-1 Aviation Fuel

Description: Jet A-1 is a high-quality aviation turbine fuel used in commercial and military aircraft worldwide. Its stability under extreme conditions, low freezing point, and clean combustion make it the global standard for jet propulsion.

Origin & Quality:

Our Jet A-1 supply originates in Kazakhstan and Qatar, countries with top-tier refining infrastructure and a long-standing reputation for consistent fuel production. Each batch is tested for thermal stability, flash point, and freezing point, in strict accordance with ASTM D1655 and DEF STAN 91-091 standards.

Logistics & Export:

From there, cargo is dispatched globally via FOB, CIF, or DAP terms, tailored to client requirements. Our logistics partners ensure secure, reliable, and timely deliveries. Jet A-1 is exported in bulk through the Port of Rotterdam, a central node for global aviation fuel distribution. Whether supplying international airports or strategic buyers, we ensure seamless delivery with full documentation, quality inspection reports, and SGS certification upon request.

Specifications:

- Freezing point: $\leq -47^{\circ}\text{C}$
- Flash point: $\geq 38^{\circ}\text{C}$
- Density @ 15°C : $775\text{--}840\text{ kg/m}^3$
- Kinematic viscosity @ -20°C : $\leq 8.0\text{ mm}^2/\text{s}$
- Compliance: ASTM D1655 / DEF STAN 91-091
